

SOLUTIONS made SIMPLE

A newsletter published by ACT to help make your material handling

SAFER, CLEANER, & MORE
PRODUCTIVE.

Increase your productivity by as much as 40%

and

produce upwards of *\$4,000 per day in additional revenue .

*Assumes running the cone crusher (4) Four hours per day, crushing 3/8" rock at a market price of \$9.75/ton.

- Increase Crusher Productivity
- Reduce Down Time
- Extend Equipment Life Cycle
- Expedite ROI
- Improve Fracture Ratio

The Syntro-Flo utilizes Syntron's 80+ years of feeding experience and engineering know how to maximize the process of feeding aggregates and other materials of practically all types to your cone crusher in a way that produces significantly better operational efficiencies. And, purchasing and installing a Syntro-Flo will not only **not** break the bank, but will instead and in most cases provide a **remarkable ROI that can be easily justified.**

ADVANTAGES

- Only one piece of equipment required.
- More consistent amp draw on your crusher.
- Longer life for crusher wear components
- Higher crusher productivity.
- Reduced maintenance cost for the crusher.
- Improved fracture ration of the final product.
