Rail Car Vibration

ACT also offers accessories such as various brackets for connecting the vibrators to the railcars. **Installation is also available.**

Portable Rail Car Vibrator

Non-impaction Rail Car Vibrator

Flow Aids

There are also alternatives to using vibration to prevent material from clogging. A review and completion of the ACT "Flow Aid Application" will determine the best product to improve your material flow.

Call the ACT office so your ACT technical representative can come to your rescue and find you the solution. Continuous material flow improves your company bottom line. **Start saving dollars today!!!**
